A A trip to London is never complete without a visit to the Tower of London. The site dates back to the 11th century and is guarded by the Yeoman warders, or "Beefeaters".

B King Henry VIII first introduced Beefeaters in 1485 when he used them as bodyguards. Their duties included (включали) looking after the prisoners in the Tower and guarding the Crown Jewels (драгоценности). These days though, their main role is to act as guides for many tourists that visit the Tower every year. They also take care of the eight big black ravens that live there.

C There are 36 Yeoman warders at the Tower and they are all men who were in the army for 22 years or more. They live in the Tower with their families.

D The Beefeaters are most famous for their striking red and gold uniform, but they actually wear this on formal occasions (событие). Most of the time they wear a dark blue uniform with red trimmings (отделка).

E No one is exactly sure where the name "Beefeater" comes from. One theory says that the warders used to be paid with meat instead of money! Other say that the name comes from the French word buffetier. Buffetiers were guards in the palace of French Kings. They protected the King's food.
